1. Jalankan kode HTML dan CSS di atas di browser

The screenshot shows the Visual Studio Code editor with a file named 'ode.html' open. The code is written in HTML and CSS. The HTML structure includes a head section with meta tags for charset, viewport, and title, and a link to 'cr.css'. The body contains a header with 'Buku Tamu', a main container with a form section, and a guest list section. The form section has fields for name, email, and a message, along with a submit button. The CSS section is currently empty.
